

Price list Tecnosole 2023

LE NOSTRE TECNOLOGIE

DOUBLE COOLING

SYSTEM

DOPPIO SISTEMA DI RAFFREDDAMENTO

La doppia ventilazione delle lampade e del corpo, garantisce il corretto funzionamento dell'apparecchiatura e nello stesso tempo il benessere della persona, per un seduta in pieno relax.

SENSITIVE TOUCH

CONTROL

TASTIERA SENSITIVE TOUCH

La tastiera touch semplice ed elegante dona un tocco di modernità alla doccia, e non avrà problemi di usura nel tempo. La retroilluminazione e il grande schermo rendono facile l'utilizzo.

COLOUR SHOW

LED MULTICOLORE

L'illuminazione della porta, grazie ad un sistema di LED multicolore, dona un aspetto moderno e accattivante. E con la possibilità di scegliere il colore preferito, puoi cambiare l'estetica della tua apparecchiatura ogni giorno!

VIBRO

PROGRAM

PROGRAMMA VIBRO

La nostra pedana oscillante facilita l'abbronzatura grazie all'attivazione della circolazione sanguigna nelle gambe, e promuove inoltre l'azione drenante e di stimolazione muscolare.

NO SHADOW

ZONE

NO ZONE D'OMBRA

Le nostre docce sono progettate per ottimizzare l'effetto abbronzante su tutto il corpo per un'abbronzatura uniforme, grazie all'assenza di zone d'ombra.

HYBRID LED

COLLAGEN

LED AL COLLAGENE

I led al collagene ad alta intensità, offrono, durante la seduta abbronzante, un trattamento di bellezza assicurato nella zona viso, collo e decollété per contrastare l'invecchiamento cutaneo, donando una pelle tonica e morbida.

LAMPS

2M

HEIGHT

LAMPADE DI 2M

Le lampade Tecnosole garantiscono prestazioni e durata, e grazie alla lunghezza di 2 metri, anche le persone più alte possono beneficiare di un'abbronzatura ottimale.

HYBRID LED

UVA

LED UVA

La nuova tecnologia a led UVA dona un'abbronzatura rapida, dorata e durevole nel tempo, col vantaggio dei ridotti consumi energetici.

ELECTRONIC

BALLAST

ALIMENTATORI ELETTRONICI

Gli alimentatori elettronici offrono affidabilità e prestazioni nel tempo: sono efficaci nel funzionamento ed i costi di manutenzioni sono azzerati.

MIRROR

PLATFORM

PEDANA SPECCHIATA

Grazie alla pedana specchiata riflettente viene garantita un'abbronzatura ottimale anche nella zona della gambe.

MEMBRANE

CONTROL

TASTIERA A MEMBRANA

La tastiera digitale semplice ed intuitiva, facilita il cliente nella scelta delle funzioni.

EFFICIENT

-40%

SAVING

RISPARMIO ENERGETICO

L'innovativa tecnologia "efficient saving" ti permette di risparmiare il 40% dell'energia, senza influenzare la performance abbronzante.

BLUETOOTH

RADIO

BLUETOOTH/ RADIO

Collegando lo smartphone tramite bluetooth è possibile ascoltare la propria Playlist preferita. La regolazione del volume e il passaggio al brano successivo può essere effettuato direttamente dalla tastiera Sensitive Touch. Il programma radio sarà disponibile semplicemente spostando l'apposita levetta.

HIGH

LOW

STEP DI POTENZA (PER EFFICIENT SAVING)

Grazie al pratico pulsante, è possibile aumentare la potenza delle lampade per garantire una performance stabile e duratura nel tempo.

OUR TECHNOLOGIES

DOUBLE COOLING

SYSTEM

DOUBLE COOLING SYSTEM

The double ventilation of the lamps and of the body guarantees the correct functioning of the equipment and at the same time the well-being of the person, for a session in complete relaxation.

SENSITIVE TOUCH

CONTROL

SENSITIVE TOUCH

The elegant and simple Sensitive Touch keyboard gives a modern touch to the shower and will not have any problems with wear over time. The backlight and large screen make it easy to use.

COLOUR SHOW

COLOR SHOW

The door lighting thanks to a multicolor LED system, gives a modern and captivating look; and with the possibility to choose your favorite color, you can change the aesthetics of your equipment every day!

VIBRO

PROGRAM

VIBRO PROGRAM

Our oscillating platform facilitates tanning thanks to the activation of blood circulation in the legs, and also promotes the draining and muscle stimulation action.

NO SHADOW

ZONE

NO SHADOW ZONE

Our tanning machines are designed to optimize the tanning effect on the whole body, for a uniform tan thanks to the absence of shaded areas.

HYBRID LED

COLLAGEN

HYBRID LED COLLAGEN

The high-intensity collagen LEDs offer a guaranteed beauty treatment during the tanning session in the face, neck and décolleté area, to contrast skin aging by giving a toned and soft skin.

LAMPS

HEIGHT

LAMPS HEIGHT

Tecnosole lamps guarantee performance and durability, and thanks to the length of 2 meters, even the tallest people can benefit from an optimal tan.

HYBRID LED

UVA

HYBRID LED UVA

The new UVA LED technology gives a quick and golden tan that lasts over time, with the advantage of reduced energy consumption.

ELECTRONIC

BALLAST

ELECTRONIC BALLAST

Electronic ballasts offer reliability and performance over time: they operate effectively and the maintenance costs are minimal.

MIRROR

PLATFORM

MIRROR PLATFORM

Thanks to the reflective mirror platform, an optimal tan is also guaranteed in the leg area.

MEMBRANE

CONTROL

MEMBRANE CONTROL

The simple and intuitive digital keyboard facilitates the customer in choosing the functions.

EFFICIENT

-40%

SAVING

EFFICIENT SAVING

The innovative "efficient saving" technology allows you to save 40% of energy without affecting the tanning performance.

BLUETOOTH

RADIO

BLUETOOTH/ RADIO

By connecting your smartphone via bluetooth, you can listen to your favorite playlist. Volume adjustment and passage to the next song can be done directly from the Sensitive Touch keyboard. The radio program will be available simply by moving the appropriate lever.

HIGH

LOW

POWER STEPS (FOR EFFICIENT SAVING)

Thanks to the practical button, it is possible to increase the power of the lamps in order to ensure stable and durable performance over time.

LUNA & AURORA

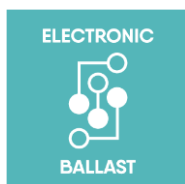

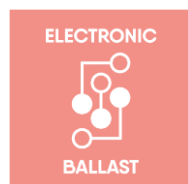

LUNA/AURORA

LE NOSTRE TECNOLOGIE

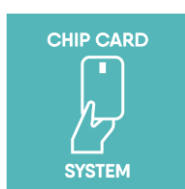

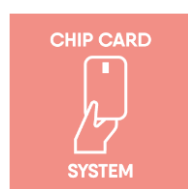

FUNZIONAMENTO PLUG AND PLAY

L'apparecchiatura non ha bisogno di installazione, si collega la spina e si può usufruire subito dei suoi trattamenti. L'imballo è 100% riciclabile.

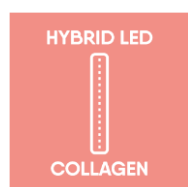

PROGRAMMA ELETTRONICO

Grazie al sistema elettronico statico si ottiene fino al 20% di risparmio energetico senza ridurre minimamente la performance.

FUNZIONAMENTO CON CARD PERSONALIZZABILI

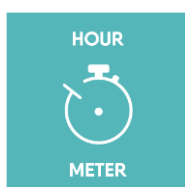

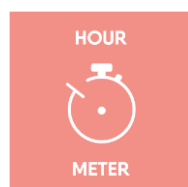

L'avviamento della seduta avviene tramite card con minuti e grafica personalizzabile. C'è la possibilità di avere delle card abbonamento.

HYBRID TOP PROGRAM

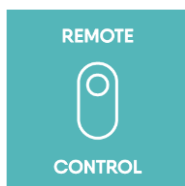

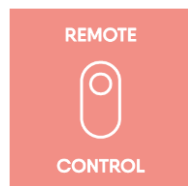

I LED al COLLAGENE ad alta intensità forniscono un trattamento di bellezza nelle aree del viso, collo e décolleté durante la seduta.

I LED UVA forniscono invece un'abbronzatura rapida e dorata con consumi estremamente ridotti.

OPTIONAL

L'apparecchiatura può essere predisposta con conta ore e gestione dell'avvio e spegnimento da remoto. Il conta ore può essere utilizzato per la gestione a noleggio non avendo la funzione reset ore.

CAMBIO LAMPADE PRE-PROGRAMMATO

Al fine di garantire un'efficienza nel tempo e le performance date da ricambi originali, il sistema tiene sotto controllo le ore di funzionamento e ti avverte con messaggi sul display quando è ora di sostituire le lampade.

Un kit è predisposto per la sostituzione delle lampade e il reset delle ore per il prossimo cambio lampade.
